

HAVE YOU CONSIDERED A CHATTEL MORTGAGE FOR YOUR BUSINESS ASSETS?

Offering you flexible terms, a fixed interest rate and fixed monthly repayments, a Chattel Mortgage from Northquest is a simple and cost effective way to obtain critical assets for your business.

How does a Chattel Mortgage work?

A Chattel Mortgage is a commercial finance product that enables you to take ownership of an asset at the time of purchase.

After advancing funds to you in order to purchase the asset, Northquest then takes a charge over the asset as security for the loan by registering a Fixed Charge with ASIC. Once the contract is completed, the charge is removed to give you clear title to the asset.

At Northquest, we offer Chattel Mortgages to both public and private organisations across a range of industries, including education, health, manufacturing, food & beverage, packaging, construction, agriculture and more.

Benefits of a Northquest Chattel Mortgage

- Flexible contract terms ranging from 12 to 84 months
- A balloon payment can be applied to the contract
- Fixed interest rate
- Fixed monthly repayments
- Costs are known in advance
- A deposit (either cash or trade-in) may be used
- No GST is charged on the monthly repayments or balloon payment

Why choose Northquest?

Northquest is an innovative solutions management company that opens up new growth opportunities for our clients. We enable businesses and governments to improve the critical infrastructure necessary to support and grow their organisations.

We do this by owning and assisting you in managing infrastructure and systems, delivering improved outcomes to you and your business. We are also able to take on the ownership of depreciating assets on your behalf such as office fit outs, IT&T and software products. Our focus on sustainability helps our clients reduce their energy consumption, reduce their carbon footprint and reduce their overall costs.

Our team is comprised of industry experts with unrivalled capability across a broad range of industries, which means we understand your challenges and customise our solutions to suit your specific needs.
